BOOM IN COUNTY REALTY UNABATED

Eighty-Six Deeds of Transfer in Alexandria County in Week

STEADY INCREASE

During September 255 Deeds of Transfer Recorded—Month of October Expected to Surpass Past Month.

SAVES GIRL IN NOVEL WAY

Shoe Unlaced And Foot Withdrawn as Train Rushes by

Lancaster, Pa., Oct. 4.—Charles Mentzer, of Columbia, a car inspector of the Pennsylvania Railroad Company, saved a young girl from death on the tracks in this city.

At the Lemon street grade crossing the girl's shoe became wedged in a switch and she was unable to free herself. Her cries attracted two women, who swooned when they realized her predicament. Mentzer hurriedly unlaced the shoe and withdrew the child's foot. He had scarcely cleared the track before a fast passenger train shot by.

REFUSE UNION DEMANDS

Richmond Contractors Declare They Are Unalterably Opposed to Dictation as to Their Employees

Richmond, Oct. 4.—Members of the Allied Building Trades Association, who comprise 95 per cent of the contractors and builders supply houses of Richmond, are absolutely opposed to the demand of the Building Trades Council of Richmond that all workmen on construction projects here carry the card of the council. The contention of the employers is that they should enjoy the right of engaging any workmen whom they may select and that they are unalterably opposed to dictation from the union in this matter.

In a statement just issued over the signature of the secretary the association maintains that the "members claim their legal and constitutional right to select their own employees on such terms as may be agreed upon and do not recognize the authority of the council to enforce its laws, card system or other regulation, on our buildings or in our shops." The Building and Trades Council is connected closely with the building trades department of the American Federation of Labor.

It is understood that the matter reached a crisis yesterday when the Allied Building Trades Association refused to meet with a committee from the labor council to confer on the question of drafting an agreement to govern wages, hours, working conditions and other details. When it was learned that the union was to hold out inflexibly for the use of the card system the contractors refused to consider a conference, it is learned.

FALSE TEETH KILL WOMAN

Swallowed While Seated in Park—as She Reaches Hospital

Mrs. C. M. Waren, of the Woodworth apartment, Washington, swallowed her set of false teeth while sitting in Mount Vernon square yesterday and died as she reached Emergency Hospital.

Mrs. Warren, who was 60 years old, was observed by a sailor seated on a nearby bench to be gasping for breath. He rushed to her aid, but she was unable to speak and could only point to her throat. This was at 3:30 o'clock, and she was pronounced dead ten minutes later.

NEGRO ATTEMPTS TO KILL OFFICER

Policeman Miller Has Narrow Escape From Being Shot

ASSASSIN ESCAPES

Desperado Believed to be a Washington Bootlegger — Was Wearing Hunting Coat With Many Pockets

About 8.30 o'clock this morning while Officer Charles Miller was on Duke street, between Patrick and Henry, he accosted a strange negro who he had reason to believe was a bootlegger. The darkey wore a hunting coat, the garment generally worn by negroes who make their living defying the prohibition law. While the officer was engaged in sizing him up the black, who had a pistol in his sleeve, suddenly drew the weapon and discharged it at the officer. The latter succeeded in knocking the pistol aside and the ball went wild. The negro then took to his heels and disappeared somewhere in the bottom east of the paint shop of at the Southern Railway depot.

Officer Miller was not carrying his pistol at the time. When news of the attempted murder reached the station house the entire police force scattered toward every section of the city for the purpose of ferreting out the would-be assassin.

Officer Miller can positively identify the negro. It is believed he came here from Washington.

WILSON SPENDS TRANQUIL NIGHT

Slept More and Seemed to Have Rested Comfortably

IS STILL GRAVELY ILL

Members of Family Remain at the White House—Another Consultation Held at Eleven O'clock This Morning

President Wilson spent a quiet night, it was stated unofficially at the White House this morning.

He slept more than on the preceding night, and seemed to have rested more. But attaches of the Executive Mansion point out that the President is still "gravely ill."

Members of the family remained at the White House,

Shortly after 10 o'clock Dr. Sterling Ruffin, Dr. E. R. Stitt, U. S. N., and Dr. Grayson began another consultation. Dr. F. X. Dercum, due here from Philadelphia about 11 o'clock, was expected to go immediately to the White House to join the consultation.

President Wilson was a little better last night, but his illness was by no means out of the serious stage The night bulletin from Rear Admiral C. T. Grayson, his personal physician, described his condition as about the same "with a slight improvement."

When Dr. Grayson left the White House for the Executice offices the President had put two full hours in easy natural slumber and was still sleeping. It was the first natural rest he had taken since his nervous period and it constituted the most heartening sign of the day.

At a late hour last night Mr. McAdoo, the President's son-in-law, made a visit to the White House. He was met at the door by Dr. Grayson and ushered immediately inside.

Unusual significance was attached to Mr. McAdoo's visit for the reason that he had announced earlier in the day that he intended to go to New York last night. His change of plans gave rise to the belief that the President's condition may have become worse, making it imperative for him to remain at call.

Mr. McAdoo declined to make any statement as to the reasons for his decision to remain in Washington nor for his late visit to the White House.

The President's present condition can be be described as "serious, though not immediately dangerous."

DRY LAW REPEAL SOUGHT

Secretary of Treasury Makes an Effort Personally to Urge President to Act

Philadelphia, Oct. 4.—Carter Glass, Secretary of the Treasury, went to the White House Thursday to urge President Wilson to suspend the operation of wartime prohibition in order that the Federal Treasury might not lose the $400,000 in revenue involved in the tax on whisky now in bond, says the Washington correspondent of the Public Ledger today.

PROTESTS RESULT IN MOVING JITNEYS

Cars For Humphreys Now Stationed at Upper End of King Street

NO MORE COMPLAINTS

For Short Period Were Located On Columbus South of King—Protests Were Made.

The jitneys operating between this city and Camp Humphreys have again changed their location. The jitneys are now located at the upper ned of King street, east of the Union passenger railway station.

Ever since the jitneys started operating betwen this city and Camp Humphreys they have been moved from one location to another. In most instances protests were made to the authorities against their locating at the points where they were stationed. It was claimed by the protestants that they were a nuisance.

Trouble with the jitneys first started when they were moved from Alfred street south of King to Pitt street south of King. Protests against their locating on Pitt street were made and only recently they were stationed on Columbus street south of King street.

The jitneys are now located on upper King street far from any residential property and the authorities say that so far they have received no complaints regarding the new location. It is, therefore, thought that this location will here after be a permanent one and that the complaints regarding the jitneys is a thing of the past.

THE FULL DINNER PAIL

The Gazette yesterday called attention to the fact that in 1897 choice butter sold wholesale at five cents a pound in Alexandria.

About this time workmen in the United States were appealing for a full dinner pail, and this was the slogan of the republican party who were clamoring for a high protective tariff, who promised to start the wheels of commerce which had long been clogged.

The full dinner pail came, not through the protective tariff, however, and for years the American workman has been in a position to purchase the best of everything. He is doing so today, in this era of an abundance of work at wages unheard of at any previous time in the world's history.

Not only is the American mechanic in a position to secure an abundance of the necessaries of life but he is able to procure many of the luxuries, including automobiles if his taste runs that way.

But under such blessed conditions the spirit of thankfulness upon the part of the many is sadly lacking. Thousands at this time are standing all the day idle in the United States but throughout Great Britain, while production is falling off rapidly and prices are soaring.

Our country has long been on the crest of the wave of prosperity. But the seven fat kine seen by Pharoah in his dream will surely be followed by the lean, and when grim want again faces the nation the minds of many now in the heigh day of their existence will go back to the time when there was work for all but when their blessings were not appreciated.

FIRST VIRGINIA BIGAMIST

Virginia's first bigamist has been run to earth according to the Richmond Times-Dispatch. But trial and prison bars for having three living wives at the same time will not be for him. His name was John Smith and it was in 1642 that three women called him husband.

"Only by dusting off an old patent book did the crime of the man who was the original "One John" to his trio of dames comes to light. Col. John W. Richardson register of the land office and superintendent of public grounds and buildings of Virginia was looking over his old patent books and he took down No. 1, volume 2.

"Therein the deed lay revealed John Smith had come to Virginia and joined the colony at Jamestown and had brought with him ten people. Three of them were his wives. For his generous addition to the little settlement, Smith came in for a political plum from Sir William Berkeley, who was at that time Royal Governor.

"Smith was granted 670 acres of land out somewhere in the wilderness and the record of this grant in the patent book led to the discovery that he had been married three times and had brought all of his wives to Virginia with him. Their names were Sarah, Eliza and Alice.

"Smith was not related to Captain John Smith. If he wasn't an ancestor of the Joe Smith who established Mormonism in Utah he ought to have been. He possessed all the qualifications."

WILSON'S BREAKDOWN

The condition of President Wilson is causing apprehension. The bulletins now being issued are far from assuring, and, reading between the lines, there is reason for anxiety. What has happened to other men is likely to happen to the executive. He is run down and has become a victim of nervous prostration, and the outcome is uncertain.

Men occupying important positions in life seldom think of the danger incident to extraordinary and continued mental strain. It never occurs to them that there is a snapping point, and that the tension cannot be prolonged beyond a given time.

The President has passed the three-score mile post, and throughout life his mental labors have been great. During the past seven years he has been heavily burdened, more so than any man who ever occupied the White House, and his late attempt to "swing round the circle" has proven the straw to break the camel's back, The President's condition brings to mind the fate of many prominent men in bygone years who worked themselves to death.

Prayers are being ofered for Mr. Wilson's speedy recovery at a time when his services are so greatly needed, and invocations will doubtless be made for him in all our churches tomorrow.

GREAT BRITAIN'S CRISIS

Negotiations Between the Government and Labor Broken Off

London, Oct. 4.—After a day of renewed tentative peace pourparlers between the government and labor, the negotiations were broken off last night and the danger of Britain being laid low by the greatest industrial crisis in history became more real and terrible than ever.

By order of Field Marshal Haig, one division of troops is already located in London, and other military bodies are stationed at various points throughout Britain, ready for any emergency.

Strong armed forces are, therefore, in position to back up the citizens' army, but this citizens' army is the government's first line of defense in the great social and industrial crisis.

Immediately after the break-up of negotiations the government issued an appeal for a citizens army to meet the crisis.

At the same time the trades unions called a conference for next Tuesday "to discuss a general strike by all British labor" in sympathy with the railway workers.

"Meet our just claims, and we'll call off the strike," is the last word of the rail men to the government.

"Go to work first; then we'll negotiate," is Lloyd George's stand from which he will not budge.

Aristocracy is helping England meet today's national crisis. Is doing more, and will do greater things—than the striking sons of the proletariat.

The titled strikebreakers, a railway official said today, had accomplished in three hours work that which the regular workers took seven hours to finish.

They start work early, too, the London social leaders who have volunteered their services.

Have you a lame back, aching day and night? Do you feel sharp pains after stooping? Are the Kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Alexandria people. Read this case:

Mrs. A. M. Madison, 323 North Royal street, Alexandria, says: "I was so bad off with kidney complaint I had to go to bed. My back hurt me as though I were being pierced with a sharp knife. I couldn't turn from one side to the other, but was just helpless. When I was able to get up around at all I had to have help to do everything. I couldn't even lace my own shoes, and I was so nervous my hands would shake like a leaf when I tried to hold anything. The way my kidneys acted showed they were in bad shape. I got Doan's Kidney Pills at Creighton's Drug Store and I was certainly filled with joy before I had used them very long. The misery left me and I felt like my self again."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Madison had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Before the first Brunswick Tire was ever built, we analyzed and tested over 200 tires.

Since 1845 the name of Brunswick has stood for superlative values and fair-dealing.

Tires Differ As Policies Differ

Some Remarkable Facts About Brunswicks

THERE is nothing to prevent any maker from producing a super-tire. All formulas, all methods are well known in the industry. A perfect tire is simply a question of care and skill and cost. These facts can be verified by testing 200 types of high-grade tires and analyzing their materials and construction—as the Brunswick laboratories have done.

In a super-tire, such as The Brunswick, there can be nothing exclusive. Because such a tire must be a composite of all that is best. No one feature must overshadow others.

In Brunswick Tires, for instance, we have included that familiar formula, long in use, which makes the best tire tread that's known.

And there's a certain type of fabric which, by test, is stronger than all others. Naturally it is in The Brunswick.

To attain the utmost in tire mileage there are certain reinforcements — certain extras. We have adopted all.

To combat the commonest tire troubles, we have adopted the approved side-wall construction, long tested.

In other words, The Brunswick brings you a combination of supremacies, such as were never possible before.

Brunswick TIRES AND TUBES

There's a Brunswick Tire for Every Car
Cord—Fabric—Solid Truck

In attaining a tire worthy of the name of Brunswick we were convinced that it depended chiefly on policies and standards, on prejudices and knowledge. Brunswick Standards are known the world around. For 74 years the House of Brunswick has worked in rubber—long before automobiles were known.

Every Brunswick product has attained and held supremacy. The name always insures superlative values. To build a mediocre tire would be unthinkable for such a concern, jealous of its long-standing reputation.

The Brunswick idea is to give all that is possible, all that anyone can give—all that any factory cost can buy.

The result is a tire that is winning friends the nation over. In The Brunswick motorists expect the utmost—and get it. Never has a tire had greater appeal to the man who appreciates real merit.

Try *one* Brunswick. See if you agree with others that here is more for your money. One Brunswick, we are certain, will convince you that you'll never be satisfied until you have *all* Brunswicks.

DISASTROUS FLOODS

City of Cartagena, Inundated and Without Lights at Night, Reports 22 Casualties

Madrid, Oct. 4.—Many casualties have resulted, it is feared, from the floods caused by excessive rains throughout the country, particularly in the city of Cartagena, the inhabitants of which spent a night of terror Wednesday night owing to the inurdation of the lower parts of the city.

The town was in complete darkness, owing to the interruption of gas and electric light service. The inhabitants who had taken refuge in the upper floors, crowded the windows and balconies, appealing for help. The mounted police did their utmost to rescue them, swimming their horses neck deep in water to rescue the terrified inhabitants, but were eventually obliged to abandon their efforts in consequence of the rising waters.

First reports gave 22 casualties in Cartagena and it is feared that there have been many more victims, especially in the suburbs. The waters swept merchandise away and caused great damage to goods in stores and warehouses. Foodstuffs are becoming scarce and a warship has bee ordered to Cartagena to replenish the supplies of the city.

PLAN TO END AGITATION

Negro Educators Declare That Intermingling on Terms of Social Equality is Doing Harm to Race

Raleigh, N. C, Oct. 4.—To allay destruct and to put an end to racial agitation and strife, 38 leading negro educators in North Carolina Wednesday announced a definite platform upon which the negroes in the state may stand in peace with the aspirations of their own race.

The platform as announced condemns all advocay of social equality or intermarriage between the races and opposes any appeal to force to cure injustices complained of.

"Any individual or society in or out of the state that advocates the intermingling of the race on terms of social equality and intermarriage of races is doing great harm to the negro, for wherever this doctrine finds lodgment it stirs race prejudice in the South and threatens the well being of both races," reads the statement of program, adding further on:

"Wherever injustice appears, there is entirely too much said by self appointed leaders outside and inside the state about an appeal to force. Those who intimate that such an appeal will in any way be beneficial are the most dangerous enemies to all."

BATTLE IN ARKANSAS

Little Rock, Ark., Oct. 4.—According to a long distance message from a staff correspondent of the Arkansas Democrat, a battle is believed to be in progress between 50 soldiers of the Fourth Infantry and an equal number of armed negroes in a heavily wooded district three miles east of Elaine.

STRANGLED TO DEATH

Baltimorean Falls Upon Electric Motor, Which Wraps Raiment Tightly Around Him

Baltimore, Oct. 4.—Isaac Steinberg, employed by the Liberty Yeast Corporation, Eleventh and O'Donnell streets, was the victim of a peculiar accident at 7 o'clock a. m., yesterday. Falling upon an electric motor, his clothes caught in the fly wheel of the machine and wrapping tightly about him strangled him to death.

Peter Blemeyer, the superintendent of the works, found the body and called Patrolmen Classen and Coll, who were forced to cut the man's clothing from his body in order to free it from the machine. The body was then taken to St. Joseph's Hospital, where death was pronounced.

Steinberg had been working at the plant about three months as a laborer and was last seen by employees at 4 p. m. Thursday. The motor which caused his death is located between two big vats and is used to run the pump that keeps them supplied with water. Apparently Steinberg was walking on a ledge around the vats when he fell upon the machine.

A RESOLUTION proposing amendment to section 117 of article 8 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next general assembly.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population, but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Sec. 117. But each of the cities and towns of the State having at the time of the adoption of this Constitution a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six, one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

SUGAR PRICES INCREASE

Failure to Purchase Cuban Crop Assigned as Reason

Washington, Oct. 4.—Failure of the President to authorize purchase of the Cuban sugar crop for 1920 makes it practically certain that sugar prices will increase after next January 1, a Senate subcommittee was told yesterday by Geo. A. Zabriskie, president of the Sugar Equalization Board, and W. A. Glasgow, counsel for the Food Administration.

The President has been advised that the "situation is out of hand," they said, and refiners notified that control of the market probably would end after December 31.

Completing its hearings the committee planned to take up later in the day legislation designed to meet what Chairman McNary characterized as a "desperate situation."

GRAND THEATRE

Although a fearless horseman, a deep sea fisherman and a man most careless of his neck in the filming of his pictures, Salisbury has a horror of a skidding motor car, and at the first sign of rain hangs enough chain on his wheels to lash a log raft.

The star recently bought a new car; one of those long, low, rakish crafts with a cut out that sings like a machine gun.

"That car won't skid easily, Mr. Salisbury," the dealer told him.

"I'll say it wont" answered the star. "Give me four heavy chains and an extra set in case one breaks"

Monroe Salisbury fears wet pavements but he is afraid when the director calls upon him to risk his life in the making of Universal pictures.

"The Man in the Moonlight," his latest success, is to be shown at the Grand Theatre tonight.

Supporting the star are three widely known and popular players: Colleen Moore, William Stowell and Alfred Allen, dean of character actors.

TERRIBLY SWOLLEN

Suffering Described as Torture Relieved by Black-Draught

Rossville, Ga—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would catch me, and I got so I castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be decribed as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-131

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
